

Bed and Breakfast Partnership Program

Can something you throw away save a life?

3.5 million children under the age of 5 will die this year to two deadly diseases- acute respiratory infection (pneumonia) and diarrheal disease.

Even more tragic than these staggering facts is that these deaths could be prevented by up to 65% through simple hand washing with bar soap.

Today, in the United States alone, we will throw away between 1 - 1.5 million bars of soap.

You can help. Each month your B&B discards slightly-used soap and shampoo. These products often end up in already overflowing landfills and contaminate fragile groundwater systems. By sending your discarded soap and shampoo products to Clean the World, we will be a step closer to reaching our goal of saving 1 million lives each year.

Becoming a partner is easy and rewarding

Benefits

We will provide you with quarterly statements detailing the amount of soap and shampoo shipped during that period. You'll also reduce your waste management costs and also have the peace of mind that comes from knowing that you helped save lives while being environmentally responsible.

Recognition

Clean the World loves to recognize the help we receive. By participating in the B&B Partnership Program, Clean the World will feature your property on the B&B partnership page at cleantheworld.org. We will connect with you on social media to let potential guests know that you are doing your part for the environment and the world.
