ABOUT CLEAN THE WORLD

## Our Purpose

Clean the World is a global impact organization whose purpose is to make the world a better place through the recycling and distribution of soap.

We aim to eradicate hygiene-related deaths by providing sustainable hygiene resources, programming, and education focused on water, sanitation, and hygiene to those affected by poverty, homelessness, and humanitarian or natural crises.

Clean the World partners with **The WASH Foundation** to help distribute recycled soap and other hygiene resources to communities in need around the world.

ABOUT CLEAN THE WORLD

## Soap Recycling Process

Clean the World manages all collection and consolidation for recycling.

### STEP 1

Hotels collect used soap and send it to Clean the World.

### STEP 2

The collected soap is refined and sanitized at our facilities.

### STEP 3

New, life-changing soap is created.

### STEP 4

A third-party laboratory tests the soap.

### STEP 5

The soap is distributed to vulnerable communities around the globe.

ABOUT CLEAN THE WORLD

## Plastic Recycling Process

Clean the World manages all collection and consolidation for recycling.

### STEP 1

Hotels collect plastic amenity bottles and send them to Clean the World.

### STEP 2

The plastic bottles are sorted based on contents and plastic type.

### STEP 3

The plastic bottles are ground into flakes, and the liquid soap is separated.

### STEP 4

The ground plastic flakes can then be repurposed into new products.

# How to Collect

As your housekeeping team makes their rounds through your guest rooms, encourage them to separate bars of soap and guest room plastic bottle amenities from the rest of the trash. When they make it to the collection area, have them fill each box with their collected soap and amenity bottles.

Once the box is 100% full tape the box closed. You are now ready to ship your boxes to Clean the World and order replacement boxes.
